<p><i>Notes:</i></p> <p>(a) <i>The programmes that were offered in 2000, 2001, 2002 and 2003 could be considered for accreditation provided the graduates (in the year of 2004, 2005, 2006 and 2007) undergo the Industrial Training as per the requirement of the EAC Manual. The Industrial Training could be at the present workplace related to the appropriate engineering discipline. UNiM must furnish the BEM their assessed training records for a period of ten (10) weeks for the BEM's evaluation. Failing this, the graduates will not be able to register with the BEM. The discipline of registration either in Electrical or Electronics will depend on the subjects taken by the graduates during their studies.</i></p> <p>(b) <i>For the graduates of 2008 onwards, the Industrial Training must be incorporated in their curriculum. UNiM must show evidence of the implementation.</i></p>
